

STUMP

Jack Pine knows absolutely nothing about the manufacture of saws and arrows. He doesn't even know how to properly throw a spear. But he would like to know whether or not it would be feasible for Bear Archery to branch out into the manufacture of skis, to add to the world-wide fame of Bear Archery. Bear-made skis would be readily marketable items, so seems that the location in Grayling, close to one of the best ski areas in the State, would be a great opportunity to Bear Archery and a greater fame to Grayling. As I say, I know little about the problems involved, but it is impossible, and Jack Pine just happens to feel that the ski and industries of Grayling can accomplish just about anything.

**SHIPPING NOTE:** The fishing district for 1956 states that the limit for trout on the South end of the AuSable is nine fish. Since the AuSable is at its peak in distribution, nothing can be done to change this unfortunately. The limit is actually inches, and this ten inch limit will be followed, no matter what the district says. The Conservation Department says that the limit is at all the landings on the AuSable and along the river. It is assumed that if someone had the District's signs, and that since the signs are posted on the waters, the last word. Quibbling about this isn't worth getting any farther.

Jack Pine in a while I comment on one advertisement when it seems suddenly had been such a success. A June bride carrying a basket of laundry down a church steps. The current series of ads for dog food is just about as pathetic as not quite so blatant. In this series shows a mother and her two sons in a pillow box dog that is obvious. The dog's great energy from the pillow box is obvious. It is unfortunate that the dog, that this energy is used in lying up a pillow, case and all current Friskies ad is along same line. It shows a child in a clean bed. Beside the dog and between the dog and the child is a large and hairy dog. These may appeal to kids, but it is really Mama who buys the dog, and I can't imagine mama buying dogs who chew pillows and tear between the sheets.

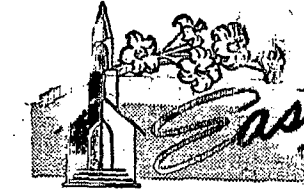

According to the Conservation Department, the grayling trout is being re-introduced to Michigan. A idea originated with the Michigan News, which offered \$1,000 for the re-establishment of the fish in Michigan. It's been 25 years since they were being in Michigan. Various hatcheries are being studied to find a suitable location for planting. Maybe some day we will have grayling again.

From the Iowa State Green Derby: "Say, mister, let me have those baby diapers," says little boy. The mother says, "No, says the clerk. 'That'll be cents for the diapers and 3 cents for the tax.' Replied the boy, 'Never mind the taxes; those are safety pins.'"

"A distinguished Contributor," asks about the cancer program. Jack Pine will try to answer your question next week.

A woman driver is sometimes a person who, when driving, is a traffic rule, is blamed for everything. A man who isn't so true. Women are usually a more careful than men when it comes to driving, according to the statistics. A month ago in Grayling, a woman backed into a parked car one night. No one was hurt, and the damage was minimal. Instead of taking off for the night, she went to the police station and reported the accident. She then contacted her insurance agency to notify them. How many others would do that?

## Mercy Hospital Plans Progress

### State Government Costs To Boom, But Expect Balanced Budget

State Government Costs will set a new record for next year but everybody expects a balanced budget.

These peculiar forecasts are based on prosperity of the past 12 months with the increases in tax yields just barely offsetting the increased costs of government.

Legislators, dealing such things as the "growth factor" of taxes—the bigger net yield which normally follows a business boom—and expanded services are into the final stage of budget bawling.

At the moment, the 1956 budget looks something like \$315,000,000.

Gov. Williams asked for \$369,000,000. Republicans in the Senate aimed for \$310,000,000. House finance leaders hoped to pare more off the requests, ending with \$305,000,000.

Williams based his budget figures on a \$25,000,000 surplus, which he said could be used to pay off the requests. Republicans said the surplus was more like \$17,000,000 and hoped to avoid spending it for operations.

"If we did, we would have a government next year that we couldn't afford," said Rep. Rollo G. Conlin (R-Tipton).

### Sand Lake Mayor, Grayling To Swap

Michigan's mayors and village presidents learned Tuesday where they will spend Monday, May 21. The Sand Lake mayor will swap towns and rule for a day as a feature of Michigan Week, May 20-28. The exchange cities were "paired" at the annual exchange of mayors drawing held in Lansing.

East Grand Rapids, chairman of the exchange committee presided.

Mayor A. L. Roberts of Grayling is to exchange with Sand Lake mayor.

Sand Lake is 34 miles north of Grayling, 131 about 25 miles North of Grand Rapids.

Names of nearly 500 cities and villages were placed in a large hat and drawn out by the Governor, Governor William E. Weaver, Michigan Week chairman, and by Lieutenant Governor Phil Hart and House Speaker Wade Van Valkenberg, honorary co-chairmen.

### Archers Set Carnival Date

Archery enthusiasts will get a week's start on trout fishermen in the famed AuSable River. A "Bowishing Carnival," sponsored by the Grayling Bowmen and Grayling Sportsmen's Club, in cooperation with the Crawford County Chamber of Commerce, has been set for the week end of April 21-22.

Archers will get shots at suckers—not trout, which aren't legal—until the following week end and then not to archers.

The fish, running from one to five pounds, run heavily in the river at that time and archers have been shooting for them for several years. They usually gang up in holes of three to four feet.

Registration will be at the Sportsmen's club near the US-27 highway at 9 a. m. Saturday and Sunday, with shooting to begin immediately after entry, for which there will be no fee.

A 1856 fishing license is necessary and the main stream of the AuSable will be open to shooting.

"As we haven't yet collected all of the merchandise prizes, we don't know exactly how many there will be," says Charles M. Krohn, president of the Grayling Bowhunters. "There will be awards given for the heaviest, longest, shortest and lightest fish, for oldest and youngest archers, one traveling the farthest to the shoot, etc."

Shooting may be done either from canoes or river banks. There will be a big pow-wow Saturday evening in the new American Legion hall, with a new bowhunters' move by Fred Bear.

Roger Kessler of Mt. Pleasant C. M. C. spent the week end here.

### Cancer Drive Chairman Named

Appointment of Mrs. Harold Rasmussen as chairman of the American Cancer Society's 1956 educational and fund-raising campaign in Crawford County was announced here today by Mrs. E. R. Rasmussen and Mrs. Carl Johnson of Frederic, co-chairman of the County Cancer Society. The campaign will begin Monday, April 2.

"This year," Mrs. Rasmussen said, "our campaign will seek a total of \$28,000,000 nationally, money which will be used to carry on the fight to control cancer on three fronts—public and professional education, service to patients, and research designed to find new cures for cancer and eventually to conquer it completely. The 1956 quota for Crawford County will be announced shortly."

The Society's chairman have been working out detailed plans for the campaign, which will continue throughout April, designated by Congress as Cancer Control Month. Many volunteers, both women and men, are to take part in that drive, which will have a double purpose—carrying the facts about cancer to the people of Crawford County and in turn asking them to contribute to the unceasing battle against it.

Last year, statisticians estimate, about 245,000 died "of cancer," Mrs. Rasmussen pointed out, "while some 80,000 were saved from it. But perhaps 80,000 of the deaths were needless, occurring because the presence of cancer was not detected early enough, so that treatment was begun too late."

"The public education program of the American Cancer Society aims to bring home to all the people of the United States the neces-

### Mary Bickel Named To JC Honor Squad

Marvin Bickel, former Grayling Varsity athlete, was honored by being named to the second team of the All Michigan Junior College Conference. A poll was taken among the coaching staffs of the Junior College League recently with two teams being named.

Bickel, who was a top scorer all season in the powerful Junior College Circuit, was joined on the second team by his team mate, Jerry Benton of Traverse City.

The two Northwestern Michigan College basketball players were the only ones from their school to be named on either the first or second team or given honorable mention.

### Announce More Plans For 3rd Trade Show

In a little over a week, the Third Annual Trade Show sponsored by the Grayling Women's Club will open in the new gym at Grayling High School.

Expected to be bigger and better than the previous two shows, an even larger attendance is expected to inspect the brilliant displays of the many merchants of Grayling as well as to view the fine entertainment arranged by the club.

Among the many fine acts which the club has signed to appear at the show are: Moore and Patrick, a professional clown set the Traverse City Barbershop Chorus; Eddie Collins, a banjo musician; and John Connelly, an Irish tenor and a winner of an Arthur Godfrey Talent Scout show; Ray and Madeline, a professional dance team.

Added to this stage entertainment will be the many, many booths arranged by the Grayling merchants which will feature merchandise displays in many cases entertainment, and most all will have a free gift for all.

Door prizes such as, gasoline, oil changes, paint, clocks, groceries, out-of-door grills, sheets, beautiful plaques, carving sets, and many other wonderful gifts are on the list.

The show will open at 1 p. m. both on Friday and Saturday, April 8th and 7th and will remain open all evening long. Better make these two dates down on your calendar so you don't forget to attend Grayling's biggest show of 1956.

All Grayling kids are urged to look at the beautiful new bionic display in the window of the Grayling Barber Shop. This bike will be given to some lucky kid during the Trade Show by the Grayling Bowhunters.

### Original Oil Painting Is Gift

Because of the generosity of one woman and some forty odd eight year-olds, Mrs. Mary Farmer's new second grade room has an original oil painting.

Last summer, when their classmate, Pamela Hunter, died, the children of the second grade contributed money to be used as a memorial for Pamela.

At the suggestion of individual members of the school board the search for a suitable picture was begun. As it happened, an art show was in progress in Traverse City, featuring the work of two local painters. However, sadly enough, there was nothing within the price range of the group.

When one of the painters, Miss Barbara Lossman, of Williamsburg, heard the story of the young student's fund, she offered one of her finest "paintings," "Dutchman's Pride," of the school at a considerable financial loss to herself. Her kind and generous offer was accepted and bearing a plaque inscribed "In memory of Pamela Hunter," it is now hanging in the second grade classroom, to be enjoyed by generations of children to come.

On Wednesday, March 14th, at a meeting in Detroit, Mother Mary Nicholas, R.S.N., Mother Provincial of the Sisters of Mercy, formally accepted the completed plans and specifications for the new Mercy Hospital of Grayling. This action followed approval by the Regional Office of the Federal Government in charge of distribution of Hill Burton Act funds for hospital construction. At the meeting were the architects, representatives of the State office of Hospital Survey and Construction and the Sisters of Mercy. Sister Marietta, local Superior, represented Grayling.

The schedule for bidding on the project was also outlined at the Detroit meeting. Gordon Cornwall the architect, announces that the Bids for Construction will be advertised on Saturday, March 31st. ### Grayling Mercy Hospital Approved By State Dept.

In Crawford County the Mercy Hospital, Grayling, is among 238 in the state which is fully licensed to provide maternity care, the Michigan Department of Health reported today.

Dr. Albert E. Heutis, State Health Commissioner, released the list of fully-approved hospitals as a sign of the "significant strides forward toward giving the very best medical care to our new babies and their mothers."

Three years ago, he said, only 143 Michigan hospitals were on the fully approved list; a year later, 185 had qualified; and the number fully licensed now stands at 238.

## Free Baptists Plan Caravan

Rev. Weld, Pastor, and Mr. D. W. Bearss, Sunday School Superintendent, inspect a map of the route they will follow during the next six weeks with Abraham's Caravan, a program of stewardship.

Tent stakes pulled? Camel-fed and watered? Then shake the sand out of your sandals and let's join Abraham's Caravan — enroute from Ur to the Promised Land and up to Heaven-ward. Tickets for the six weeks' journey were first offered to the public last Sunday, but the departure date is not scheduled until April 1st, so you can still get in on the trip if you come to Sunday School this week.

The caravan is planned to serve a double purpose; first, to encourage regular attendance, not only from Easter to Mother's Day, but also as a habit in the future, and secondly, to teach Christian stewardship of life, based on the experience of the patriarch Abraham.

ham. All of life, with its joys and trials, its duties and privileges, its pleasures and wealth, is a trust from God, a stewardship for which all will give account some day. Some of these specific points will be the "oasis stops" along the way: beginning with Abraham's call representing our need to begin the Christian life by surrendering to Christ, the route also emphasizes the giving of life, testimony, money, time, and all, the latter illustrated in the sacrifice of Isaac on Mount Moriah.

Now, how many want to make the trip? Sunday School starts at 8:45 a. m.

Proposed Postal  
Rise Would Add  
\$10,100 Locally

(Special to the Avalanche)

New York, Mar. 28. — What extent will the proposed bill to increase postal rates, now before Congress, affect people in Grayling, if approved?

In round figures, local residents and business concerns would have to spend an additional \$10,100 a year.

The measure, proposed by Postmaster General Arthur Summerfield, and presented to Congress by President Eisenhower, seeks to cope to some extent with the continuing annual deficit of the Post Office Department by upping mail rates more than \$40 million a year. About \$31 million of this would be increases in first class mail charges.

First class rates would rise to four cents an ounce from the present three cents. Air mail would also go up one cent, to seven cents. There would be an increase of 30 percent, divided over two years, in rates for books, magazines, newspapers and other second class mail. Third class rates would go up 25 percent. The overall average rise would be 17 percent.

In Grayling, in the past fiscal year, \$60,500 was spent for stamps and other postal services, according to the Post Office Department's official figures.

This would increase to \$70,600 a boost of \$10,100, assuming that the average conditions apply locally.

The Postmaster General bases his request for the rate rise on the mounting scale of postal deficits. Although the business he heads is one of the largest in the world, it is in financial trouble. It loses about \$500 million a year. The only profitable segments of its operations are the first class mail, post office box rentals and the postal savings system.

Opposition to the boost in mail rates comes from those who argue that the postal service is for the benefit of the public and is therefore a legitimate charge to general revenues.

The proponents hold that it is a purely business operation and should, as such, stand on its own financial feet.

**To Life!**

"No man ever lived after he died," Tom asserted to his friend, "When you're dead, you're dead!"

"How do you know?" asked Frank.

"Of course, anyone could go around claiming that he would come to life again. In fact, there was once a famous doctor in France who did that. Like Jesus, he did miracles of healing, he gathered disciples around him, and said that he would rise again after his death."

"And did he?" Frank asked.

"No, of course not," answered Tom.

"He just stayed dead. And his disciples knew it. They never saw him again."

"That's the big difference," Frank pointed out. "Jesus' disciples DID see Him alive again. They knew that their Master was not dead, but alive! That is the big news. It is the best news the world has ever heard! It is not rumor, but actual fact. Easter is the festival of the Lord who died for our sins and ROSE again.

"Come and celebrate this glad day with us. See how it can mean everlasting life for you.

Wednesday, March 21st, 20 observers from Grayling's G. O. C. Post left at 8 o'clock in the morning for the Grand Rapids Filter station, in a body of two Government station wagons and two private cars.

We proceeded to the Y. W. C. A. at Grand Rapids, where a delicious lunch was enjoyed by all. We then visited the filter station, of real interest to all, and came away with a much better understanding of the job we are doing.

William Heric and Miss Theresa Gaivani received their Wing pins. Mrs. Leo Jorgenson received a Merit pin for 100 hours of duty, as did Mrs. Erwin Wales.

We returned home after a pleasant day and all are looking forward to a trip somewhere again in the near future.

## uctured Balloon...

Some optimists believe that we can have federal  
to education without federal control of education.  
The Reporter of Sardis, Mississippi, punctures this  
on by pointing out that "it is only natural that the  
ral government should control that which it sub-  
ges." It then cites the Hughes Act, passed in 1916,  
riding federal aid to vocational education. Its pro-  
ponents insisted that there would be no federal con-  
involved.

But now a rule requires that each state wanting  
aid "is required to submit a plan which must meet  
the approval of the Federal Office of Education."  
Those who pay the bills will always call the tune.

## Look Backward...

History is always interesting — and sometimes it  
is sad reading.  
Take, for instance, the history of the individual  
me tax. In 1929, the tax on a \$2,000 income was  
— and for a married person with two children and  
0,000 income it was a mere \$40.  
Now the tax begins at 20 per cent, on the lowest  
able income levels. From there it goes swiftly up  
ladder, reaching 91 per cent at the top.  
It's no wonder that people still talk, wistfully and  
algebraically, of the good old days. Who dares to pre-  
what taxes will be 25 years hence, with govern-  
ment functions being expanded like the proverbial  
n bay tree?

"No public man can be a little crooked. There is  
such thing as a 'no man's land' between honesty  
dishonesty." — Herbert Hoover.

## THE TRUE MESSAGE OF EASTER.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE  
FILES OF THE AVALANCHE OF 23 YEARS AGO

March 30, 1933

At a meeting held Wednesday  
evening, March 29th, at 8 o'clock  
in the Board of Trade rooms, new  
organization was formed and  
launched into the civic life of this  
community. This organization  
is to be known as the Grayling  
unit of the Michigan Railroad Em-  
ployees and Citizens League. The  
meeting was called by Mr. H. M.  
Ready, representing the Michigan  
Central, and Mr. Howard, repre-  
senting the Grand Trunk Rail-  
road. The unit was then organ-  
ized by the election of officers to  
carry on the work of the league.  
Those present voting in the fol-  
lowing: President, Fred R. Welsh;  
vice president, Dr. C. R. Keyport;  
secretary, S. Flower. President  
elect Welsh then named the fol-  
lowing committees and chairmen  
thereof: Legislation, T. P. Peter-  
son, ch. M. A. Bates, C. J. Mc-  
Namara, J. Bruun, M. Nellist, S.  
Flower. Co-operative enforce-  
ment, Frank Bennett, ch. F. May-  
N. Corwin, A. Hanson, A. J. Nel-  
son. Application for certificates,  
P. W. Christensen, ch. Wm. Fer-  
guson, H. Hanson, F. Malloy, Dr.  
C. G. Clippert. Publicity, O. P.  
Schumacher, ch. G. Olson. Mem-  
bership, A. J. Nelson, ch. E. G.  
Shaw, Rev. H. J. Salmon, Rev. J.  
L. Culligan.

Last week end, Grayling's bas-  
ketball fans, who are numerous,  
and many visitors from Roscom-  
mon, Gaylord, Frederic and other  
places enjoyed Grayling's second

annual independent tournament.  
It was a success from every stand-  
point and the Lumberjacks who  
sponsored it have reason to feel  
proud of the large crowds it  
drew and the fine exhibition of  
team-play displayed. Every team  
entered was first-class and no  
team was victor until the final  
gong sounded in each game. The  
Traverse City Elks basketball  
team presented to fans how bas-  
ketball should be played. Not  
only does this team deserve the  
credit of winning the title of  
"Northern Michigan Champions,"  
but much praise must be awarded  
to the team for the clean playing  
and good sportsmanship displayed  
during the tournament. The Elks  
without question were superior  
to any team competing in the  
tournament and many enjoyed  
watching them play.

beef, alfalfa-fed chickens, etc.

YOU'LL GET A REAL BOOT  
OUT OF THIS BEAUTY

(Just switch the pitch and see)

WE'll grant that you'll get a kick from just looking  
at a new Buick—it's that kind of automobile.

But you'll have to take the wheel, turn the key and press  
that pedal before you get any idea what this sizzler on  
wheels can do to your spirits and well-being.

It will take you only a handful of happy minutes to get  
the idea.

Just nudge the pedal—no more than a gas-saving inch—  
and you'll feel the instant new getaway that's yours  
with the new Variable Pitch Dynaflo\* even before you  
switch the pitch.

Just find a spot where you can safely and legally call  
out the reserves—then floor the pedal. That switches  
the pitch instantly—and in the same split-second you're  
at full-power acceleration and sweeping ahead like you  
never did before in any other earth-bound vehicle.

And all the while, just lend an attentive ear to the  
whispered might of that big 322-cubic-inch V8 that  
powers this spectacular performance. For that's the  
smoothest, the quietest and the highest-powered engine,  
Series for Series, in all Buick history.

There's more, of course, to make the thrills come thick  
and fast when you're bossing the best Buick yet.

There's the deep, soft comfort of big interiors—and the  
sweet and solid steadiness of that great Buick ride.

There's the grace of line you can see stretching before  
you—and the sure and nimble way this beauty handles  
and corners and tracks and targets to the road.

So come be our guest at the wheel of a spanking-new  
Buick—just for fun and kicks and a new excitement.  
And if you feel this is the car for you, we'll show you  
prices and a deal that say it's yours for sure. Drop in  
today or tomorrow, won't you?

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo  
Buick builds today. It is standard on Roadmaster, Super and  
Century—optional at modest extra cost on the Special.

### Bear Lake News

By M. D. the Roving Reporter

Mrs. and Mrs. Austin Ladd and granddaughter from Masonville, between Rapid River and Gladstone, in the U. P., they own the L. and S. sporting goods store, are here now and as usual we are talking about deer starvation, which seems to be the main topic now. They say their deer are in bad shape too, but are very much against a doe law in there. So if Michigan sportsmen are interested in keeping our deer herd, why not start sending in your ideas or get up petitions and send them in to Lansing. If a few makes it in, change the plan of the nation and stop a project as big as our jet base, why can't Michigan see that the deer are fed and saved them? Maybe along the way some one will come up with the right answer. Killing off does and fawns doesn't seem right.

Mr. and Mrs. Peter Smith, former owners of the Manistee Lake Tavern, came in to see us tonight. They both look good but talk like they miss the north. With them was their son, Tom and his wife and friends. Mr. and Mrs. Smith are now living in River, are in and wondering why can't they be fed. Mr. Worsop said he talked to a Grayling man and he said the first step was to shoot every dog running loose.

Mr. and Mrs. Ed Olson have gone down state again for the rest of the cold weather.

Earl D. just came back from a ten day vacation down state. Spent some time with the "wild" Bill Roys at Ortonville, also called on the Tommie Thomases and Dick Furness and other friends and relatives.

"Old" Art Hutchings was up for a few days. Did some perch fishing on Bear Lake, caught some nice ones to take home. He also fished on Torch Lake with no luck.

Wall Felke has been quite sick and in the Grayling hospital, but we are glad to hear he is home again and feeling much better.

Another neighbor, Mrs. Nichols, is in the Kalkaska Health Center very sick. Mrs. Nichols reports she was a little better this a. m., after two blood transfusions.

Babe Lloyd is wearing her new glasses and can see very good. She says it's wonderful to be able to see her neighbors again, let alone sea biscuit.

Now I want to thank every one for the nice birthday party they gave me Sunday and for the nice presents and telephone calls. Age? Oh, yes, Jack B. has nothing on me, still 39.

Newsmen carriers reports nothing new this week. So this is it for this week.

## Calvary Baptist Church News

Roy Papenfus was our speaker last Sunday. I'm sure everyone knows him. There were 59 out for Sunday School and a lot more for church. In the morning service we enjoyed a solo sung by Floyd Davis. Bro. Papenfus' message was interesting. It was taken from the first two chapters of the Book of Jonah, entitled "Chipping Out."

In the evening service we enjoyed a duet by Sally Hummel and Sue Borchers. It's always a pleasure to hear the girls sing. We all felt that Bro. Niederer is a fine leader in the song services and hope he will continue in that part of the service. The evening message was taken from 2 Timothy ch. 4 entitled "Beware."

Don't forget "Ladies' meeting" April 1st at the home of Mrs. Roy Smith.

Jerry Meyers was in charge of young peoples' Sunday evening. There was a large group out for the meeting. It was interesting and enjoyable. The speakers were Mr. and Mrs. Papenfus and Bob Niederer. Next Sunday Christine Canfield will be in charge of the meeting.

## Correlation of Speech and Phonics

## WHAT WE TEACH AND HOW WE TEACH IT

By Margaret Fenton

If all the children and adults in the United States who had a speech problem were put together to one group they would make a population as large as New York City.

Speech defects can be a very serious handicap to a child. It is during the primary years with the increased speech activity that most defects are corrected. Much of this correction is done in the classroom, when there is no organic or physical difficulty. For these, medical attention must be given and clinical speech therapy. Some children substitute sounds such as w for l or r, as wady for lady, wed for red, and others may substitute a sound as "poon" for spoon.

The group situation such as we have in a classroom is one way of speech correction, when we have "Talking time". Each one takes part, and the child with the speech defect is not singled out. Phonics is the association of speech sounds with their written symbols. The first step in teaching phonics is to create an awareness of speech sounds and produce the sound. The most effective way to learn speech sounds is through ear training. The child learns by hearing and imitating. So he must hear the sound over

and over again until he becomes conscious of the sound. He must also learn to produce the sound correctly. After studying a new sound, the child must review again and again the sounds already studied. Children differ in their ability to hear and know sounds.

Different methods are used in ear training. For instance, the teacher gives the sound and has each pupil repeat it.

Lists of words, which repeat the sound, are read by the teacher and repeated by the children.

Children add other words to the list. Names may be chosen from the class that sound alike, as Donna and David, Ted and Tom.

Songs which repeat the same sounds over and over are used. Rhymes using the repeated sounds are used as Peter Piper picked a peck of pickled peppers. Most all children love a tongue twister such as this and enjoy saying it.

Ear training also is the learning of rhyming words as:

Jack be nimble, Jack be quick, Jack jumped over a candle stick.

This is hardly a scratch of what is done for a child in the classroom, but, before even this can be of any help, the child must learn to keep fingers out of his mouth and hands away from the face. Sight work is done through use of blackboard pictures and workbooks, using the different sounds learned.

Speech correction is a slow process which cannot be accomplished just over night. (Many things must be taken into consideration.)

## Reading Consultant Visits School

Methods of integrating silent and oral reading skills, how to interpret what is read, and what might be done to help extend the reading interests beyond the daily needs, were some of the topics discussed.
